The Advanced Course Requirements Biology BA requires three BIO courses at the 300-level taken at Stony Brook along with an 18-24 credit non-overlapping, approved minor.

- One of the following courses with learning outcomes on topics in genetics and evolution:
  - BIO 320 General Genetics
  - BIO 321 Ecological Genetics
  - BIO 354 Evolution
  - EBH 302 Human Genetics
- Two additional advanced biology courses

The list of Advanced BIO courses accepted for the Biology BA can be found on the back of this page. Only the courses listed can be used to complete Biology BA requirements. Advanced lab courses are not required for the Biology BA, but may be selected as one of the three required BIO courses.
