

COVID-19 RESEARCH COLLABORATION SERIES

The Office of the Vice President for Research, in partnership with the Institute for Engineering-Driven Medicine and the Clinical and Translational Science Center, is pleased to present:

Models to Predict and Control COVID-19

Thursday, February 25th • 4-5 pm

Talk #1 Using Demographic Pattern Analysis to Predict COVID-19 Fatalities on the U.S. County Level

Presenter: Dr. Klaus Mueller, Professor, Computer Science Department

Talk #2 Pandemic Control in ECON-EPI Networks

Presenter: Dr. Marina Azzimonti, Professor, Department of Economics

The purpose of this series is to facilitate collaborations on COVID-19 research projects. Open to all SUNY investigators. The presentation portion of this session will be recorded. The Q&A will not.

Please register here and hold your calendar for this event.

You will receive a Zoom link before the session.
