

New Visual Theme for Concur Coming Soon

Concur will be adopting a new visual theme on the Concur mobile app and web. By enabling this option, you will benefit from a refreshed, modern look and feel, improved consistency across solutions, and a more inclusive and accessible design for everyone. No change in functionality is expected, only a change in the look and feel of Concur.

Dates for the new visual theme will be announced soon. In the meantime, two preview videos are linked below. Please [contact](#) our team with any questions.
